## The AXA Fold in your shop

### The AXA folding locks in your shop

We'll supply you with a special shelf so that you can offer your customers a wide choice from our range of folding locks. This even allows you to offer our complete range of folding locks. The AXA Fold, the Foldable Series and the AXA Toucan. There's an AXA folding lock to suit every cyclist.

Each individual product is packed in an attractive presentation box which shows the most important features. Icons are used on the packaging to provide information about the differences between the various types, which should help stimulate up-selling.

AXA provides special in-store communication and demonstration resources for your shop to help encourage sales of the AXA folding locks. Clear explanations of the features and the ability to handle and fold up the lock will convince customers of the convenience of AXA folding locks.

### A new key can be obtained quickly and safely

Extra keys can easily be ordered on [axabikesecurity.com](http://axabikesecurity.com) and will be delivered within a few days. AXA is the only supplier who produces and sends keys themselves. This means we can offer fast service and security.

**TIP:**  
Write down your key number, you need this when you want to order a key.

## AXA Fold Fold, click and go

The AXA Fold is the newest addition to our range of folding locks. With its compact and modern design its an excellent addition to our range.

### Fits all frames

The AXA Fold comes with a handy holder. This can be mounted to the bottle cage or you can secure it around the bar with the 2 supplied straps. The lock is positioned at the bottom of the holder, so you can easily tilt it out. Since you do not have to slide the lock out of the holder, it fits all frames. Thanks to the revolutionary locking mechanism, the lock is fixed in the holder, so that it doesn't rattle during cycling.

### Easy to use

Thanks to its flexible joints and its light weight, the lock is extremely easy to use. The lock is made from tempered steel and is resistant to cutting and pulling.

### Handy click-in function

The Fold has a convenient click-in function. There is a notch on the side where you can easily insert the lock. As soon as you do that you will hear a clear click. The key can now be removed and it is locked. The lock has a soft casing to prevent any scratches to the frame of your bike.

### Symmetrical key

The AXA Fold has a symmetrical key which is very convenient when opening and closing, especially in the dark! The lock also features a dust cover that protects your cylinder against moisture and dust. This is really helps with the durability of the lock.

Easy to take out of the holder

Handy click-in function

# AXA Bike Security

**AXA Bike Security is inextricably linked to cycling culture. For more than 115 years, our company has made every effort to optimally protect the cyclist and the bike. As a real bike fan, AXA Bike Security knows exactly what cyclists need to safely and confidently take to the road.**

Our engineers convert the latest requirements and developments into user-friendly, durable products. And thanks to our own production facilities in Europe, AXA can always guarantee constant high quality. In this way, AXA contributes to the safety and pleasure of the growing group of people worldwide who embrace the bike as a healthy and sustainable means of transportation.
